

THE WRANGELL SENTINEL

VOLUME 6, NUMBER 2,

WRANGELL, ALASKA, THURSDAY, JANUARY 12, 1911

\$2.50 PER YEAR, 10c. PER COPY

Humboldt Sails Feb. 3rd.

Word comes from the south that the steamer Humboldt will leave Seattle for the north on or about February 3. While she is laid up she will be given a thorough overhauling, and will no doubt be even more popular than ever on her return. The steamer's management has made arrangements with the steamer Bertha to bring north the freight of the Humboldt on the missing trip, so that but little inconvenience will be experienced by Humboldt shippers.

Checking Water Service

The water committee of the Town Council accompanied the Water Superintendent around to the different water consumers this week to check up the number of water outlets, and from now on a strict check will be maintained. There is every probability that the present year will see the water system generally enlarged, as several extensions are contemplated.

Look Out For Dog Catcher

The Marshal wants The Sentinel to make the announcement for him that he will shortly start out on a dog hunt, and woe betide the dog he finds on which the owner has forgotten to pay the dog tax. Nels Moen has been appointed Marshal, and if he goes after the dogs as he does everything else he undertakes, dog heaven will shortly be crowded with new arrivals.

Had Blood Poisoning

Dr. Shurick had a narrow escape from blood poisoning during the past week. It appears that he contracted blood poisoning from an abrasion on one of his toes coming in contact with his sock, and being poisoned with the dye. The leg swelled badly, and for a time it looked as though he was going to have a hard time of it, but managed to head the poison off and is around again, limping a little, but otherwise as well as ever.

Another Wharf for Wrangell

At last it looks as though that "New Wharf", of which we have heard so many rumors, is actually coming into existence.

During the past few weeks F. C. Miles, Capt. Hofstad, and A. Lemieux have been doing considerable figuring, and the result thereof was a crew of men under the direction of Nels Moen starting out Tuesday afternoon putting up temporary piling to hold the site for a wharf on part of the ground occupied by the old Collins wharf.

The present plans of the company calls for the erection of a wharf and warehouse and the installation of a cold storage plant in the old Brewery building.

The actual work of erecting the wharf will be under way within the next couple of weeks, as the contract for the piling has been let and the expectations are that John Sales will be here within that time with a pile driver crew.

The company intends to make a special bid for the fish shipping business, and will install a scow to handle the business. They figure that the cold storage plant will give them a big advantage in fish shipping, and entertain the hope that much of the halibut fleet will make Wrangell their head quarters instead of Scow Bay and Petersburg as at present.

Will Put Up Ice

Nels Moen and Cash Coulter are getting ready to harvest the ice crop on the Mill pond. If the weather holds as it is they intend to fill the ice house as full as it will hold in anticipation of a busy season this year.

The operators of the steamer Lindsay offer to carry merchandise to Cordova at \$8 per ton flat rate. The present rate is \$11 to \$16.

There is a small sized stampede on from Seward to the upper Kelly river, brought about by the report of rich quartz strikes there.

After the first of the year it is expected that the Conrad mines will be shipping a car of ore daily.

Capt. Franz Moore, master of the wrecked steamer Portland, has been exonerated from all blame.

According to the estimates made by the Geological Survey the production of copper in Alaska in 1910 was about 5,600,000 pounds for 1909. The increase was principally in the Prince William Sound district.

New Lodge Officers

Stickine Tribe, No. 5, Imp. O. R. M., recently elected the following officers for the ensuing six months.

Joe Ensley, Sachem.
Wm. Taylor, S. S.
N. L. Moen, J. S.
P. C. McCormack, Prophet.
L. M. Churchill, C of R.
J. E. Worden, K of W.
J. G. Grant, C of W.

Mill Will Start Early

There is every probability that the sawmill will commence operations within the next six weeks or so. Orders for material are piling up, and the new wharf will need considerable large timbers of which there is not much of a supply on hand. There are probably more loggers out hustling logs today than ever before in the history of the mill. The boom is depleted, and a big season is expected for 1911.

Kenig In New Role

Everybody in Wrangell is aware that Capt. Kenig Johansen is a versatile man, but the other day he showed a new side of his character while officiating as nurse maid. It appears that some local lady was calling on Mrs. Patenaude, and as her baby was asleep in its carriage when she arrived, she tucked it in and left it to finish its nap. After a time it awakened and lifting up its voice to attract the attention of its mother, brought the captain to its side. He took it from the buggy and proved so much of a success as a baby tender that the youngster objected when the time came for it to go home.

Will Go To Telegraph Creek

Canadian Inspector of Customs Fervo expects to get away for the upper river country at once on an official visit. Mr. Fervo, who during the past season moved down from Glenora, has been in town ever since the freeze up. He expects to be gone about two months.

GRAY MOTORS

We are sole agents for the Gray Motor Company, whose factory is the largest in the World devoted exclusively to the manufacture of Two Cycle Marine Motors. These engines are the best of their kind made. Out of the 25 we've sold we have not had one complaint. All our customers who have bought Grays are enthusiastic in their praise and confirm us in our belief that they are by far the best bargains in Motors on the Market today.

GET A GRAY

You can't afford to be without one as it greatly increases your earning power and overcomes a serious handicap to you as compared with the other fellow. Its price places it within the reach of all, for work or pleasure. Examine our stock.

This year we shall specialize in MODEL T, one, two and three cylinders. No lubricator to feed, nor oil leaking around your boat, as you mix one pint of lubricating oil to every five gallons of gasoline in your tank for the first two hundred miles run, and after that one pint to eight gallons. Kerosene attachment \$25.00 extra per cylinder.

SELF-STARTING

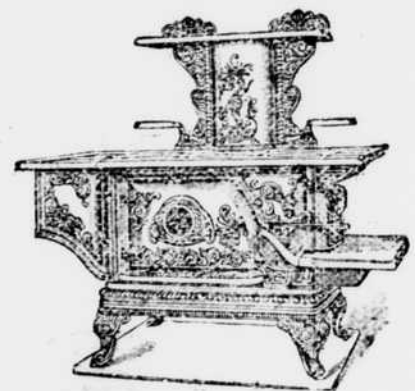

The Model T, after it has been started once will start again during the same day by merely turning on the switch, and without touching the wheel or "busting your suspenders" trying to raise a spark.

7 h.p., \$124; 8 h.p., \$160; 12 h.p., \$182; 14 h.p., \$238; 24 h.p., \$350, 2 cylinders; 21 h.p., 3 cylinders, \$425; 36 h.p., 3 cylinders, \$525. Freight from Detroit to be added to these prices. Model S will be carried the same as before in 3, 4 and 6 h. p. sizes.

L. C. PATTERNAUDE, Treasurer and ex-officio tax collector of the Town of Wrangell, Alaska.

Government officials figure that the settlement of the coal claim question in Alaska will double the population within a few years.

In his annual report, Major Richardson asks for an appropriation of \$125,000 to maintain the roads already built in Alaska.

The Alaska coal cases will be taken up by congress about the middle of January. It is believed there will be a big fight made against the leasing proposition although it is conceded that it will pass.

Webster's NEW INTERNATIONAL Dictionary, (G. & C. Merriam Co., Springfield, Mass.) surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. T. Harris, former United States Commissioner of Education, and reinforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unsparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

If he should come tonight--- THE THIEF

THE thief comes prepared—prepared to take your valuables. Carries the necessary tools. Is expert in their use. One of his tools is the revolver. In plain words, he is prepared to take your life. His deadly intent and expertness makes up for his revolver's awkwardness and slowness.

You have neither expertness or deadly intent. You cannot afford to stake everything upon a wrist-straining, trigger-flinching, slow-as-molasses firearm. Settle this matter to-day for the sake

of your family. Get the Savage automatic. The only gun that points straight, shoots true, fires fast, without practice. It is the only gun you can shoot straight any time you pick it up. Ten shots, one to a trigger pull. Reloads a fresh magazine of ten shots in a flash. Our free book "The Tenderfoot's Turn," by Bat Masterson tells why you pick the Savage instinctively true. Comes In For Bait

The steam schooner Weeding Bros., of Seattle made port last night on a fishing trip. She is a twelve dory boat, fishing independently. While here she bought 125 barrels of salt herring for bait from "Bill" Lloyd. She left this morning for the west side of Zarembo where she will try her luck for halibut. The price of the latter commodity is soaring of late, as high as ten cents per pound having been paid for it in Seattle.

E. P. Refling of Petersburg was a local visitor this week between boats, having come over in the interests of the estate of James Powers, of which he is administrator.

Halibut hooks, leaders, swivels, etc., at Patenaudes.

It is reported that the Guggenheims have sold their interests in the Alaska canneries and also their sailing ships to the meat packers, Libby McNeil and Libby. It is asserted that President Young is now in the east negotiating the transfer. It is also reported that Stephen Birch is to retire from the company.

A conservative estimate of the time necessary to make the run from Iditarod City to Seward is about fifteen days.

Patenaude carries the best in Cigars, Tobaccos, Pipes, and Smokers' supplies in general.

Notice of Settlement

Notice is hereby given that I, Roy L. Cole, Administrator of the estate of Samuel Mateson, deceased, have filed in the Probate Court my final account and report, and the Court has set Saturday, the 11th day of February, 1911, as the day for hearing objections thereto.

All persons are cited to appear on that date at the hour of two o'clock in the afternoon, at the Court House, Wrangell, Alaska, and file their objections, if any, to said account.
